

DATA SCIENCE INNOVATION LAB 2019

Thank you for your participation in this event. We hope you find it enjoyable, intellectually stimulating and personally fulfilling. Our workshops include highly interactive hands-on activities whose exact proceedings emerge rather than transpire. In essence the event has a starting point, a clear goal, and a few key milestones we must hit along the way. Expect the facilitation team to be responsive and flexible in designing each day to the needs of the group and the goals of the event. Below is an agenda overview for your reference. Please consider it a work in progress. We thank you and look forward to working with you.

Sincerely,

Tim, Donnalyn, Annemarie and Effie
